2021 CANADIAN ELECTRICAL CODE UPDATES COURSE

TSASK is offering a free online 2021 Canadian Electrical Code (CEC) Updates Course that provides supplementary information to clarify the requirements of the 25th edition of the CEC.

The course was created from the online 2021 Electrical Inspections Canadian Electrical Code Sessions that TSASK offered through October and November 2021. It provides an overview of the updated code, along with competency checks, and will supply a certificate of completion, like those received when attending a CEC session.

The 2021 CEC Update Course is a good resource for anyone who participated in the online sessions and would like to supplement with a "learn at your own pace" experience.

Sign up for the [2021 Canadian Electrical Code \(CEC\) Updates Course](#) today!

If you have any questions, comments, or concerns, please don't hesitate to contact:
