

Electric bikes and scooters are becoming more popular around the world. It's important to be aware of the potential safety risks if used, charged, or sourced incorrectly.

Follow the manufacturer's instructions for charging, storing, and handling your e-bike battery.

Only use the original equipment manufacturer's charger to charge your e-bike battery.

Charge your e-bike battery plugged directly into a wall outlet. Never use charging strips or extension cords.

Do not modify or attempt to repair your e-bike battery.

E-Bike and E-Scooter Safety

Never charge an e-bike battery unattended or overnight. Never leave it plugged in when it is not charging.

Avoid charging or storing your e-battery in extreme temperatures.

Handle your e-bike battery with care – do not drop or submerge in water.
